

BIRLA VIDYA NIKETAN
CLASS- V
EVS ASSIGNMENT – 2
L- SUPER SENSES

A. Who am I?

1. I can identify my group by a smell left on the ground. **Ants**
2. Though I am a bird, I have both eyes in the front side. **owl**
3. I can warn a danger by giving a warning call. **Birds/langur**
4. I give warning calls using electric signals. **Fish**
5. I can smell blood to find my prey. **mosquito**

B. Give reasons for the following :

1. We can hear variety of sounds of birds in different times. Why?

Ans. Birds produce different sounds for for communication, attracting mates, warning of danger, and indicating food sources. There are different types of warning calls, if the enemy is coming from the sky or if the enemy is on the ground.

2. Mosquitoes can find us easily even if it is dark. How?

Mosquitoes can find us by the smell of our body. They also find us by the smell of the sole of our feet and the heat of our body.

2. Birds move their neck very often. Why?

Ans. Most of the birds have fixed eyes on either side of the head. So birds have to turn their heads to see around. Their eyes can focus on two different things at a time.

C.
