L-3 Subtraction

Assignment -4

Q1 Subtract :

a) 732 – 421   311

b) 5263 – 1042   4221

c) 378 from 604   226

d) 1879 from 3051   1172

Q2 There are 4806 toys in a store. 273 toys were sold were sold during a sale. How many toys are left?   4533 toys

Q3. Frame a subtraction word problem for the following :

1452 – 729 =?   Answers may vary

Q4. Fill in the blanks (use the properties of subtraction)

1. 453 - _____ = 0   453
2. 9063- _____ = 9063   0
3. 56- 56 = _____   0

Q5. Write all addition and subtraction facts for the following numbers:

a. 30,40, 70   b. 13, 53, 66

30+40=70   13+53=66

40-30=70   53+13=66

70-30=40   66-53=13

70-40=30   66-13=53

Q6. Case Study

The International Mango Festival is a two – day festival held in Delhi every year. Different varieties of mangoes, jams and juices are sold at the festival.

Items sold	Mangoes	Jam bottles	Juice bottles
Day 1	1937	567	432
Day 2	842	1205	690

a. What is the total number of mangoes sold in two days?   2779 mangoes

b. How many more mangoes were sold than jam bottles in two days?   1007 more mangoes

c. What is the total number of juice bottles sold in two days? How much less is this than the total number of mangoes sold?   1122, 1657

Q7. Subtract and check your answer:

a. $8045 - 345 = 7700$,

$7700 + 345 = 8045$

b. $4078 - 298 = 3780$

$3780 + 298 = 4078$

<u>Mindspark question:</u>

Q8. A number was subtracted from **4,000** and the answer was **3,462.**

Can you find the number that was subtracted?   538
